Appendix II: Internet Infrastructure Resource Tables

Appendix table 1 IPv4 addresses by organisation

Organisation	Addresses
China Telecommunications Corporation	126,173,184
China United Network Communications Group Co., Ltd.	63,578,112
CNNIC	85,180,672
China Mobile Communications Group Co., Ltd.	35,324,288
China Education and Research Network	17,175,296
Other	29,068,143
Total	**356,499,695**

Source: The five Regional Internet Registries worldwide and the China Internet Network Information Center (CNNIC).

Appendix table 2 IPv6 allocations by organisation

Organisation	/32 blocks
CNNIC	32,931
China Telecommunications Corporation	16,387
China Education and Research Network	8,284
China United Network Communications Group Co., Ltd.	4,097
China Mobile Communications Group Co., Ltd.	4,099
Other	4,417
Total	**70,215**

Source: The five Regional Internet Registries worldwide and CNNIC.

Appendix table 3 Webpages classified by URL suffix

Webpage suffix	Share
html	52.50%
/	24.29%
php	6.42%
htm	4.19%
shtml	3.59%
aspx	2.17%
asp	1.19%
jsp	0.34%
Other suffixes	5.29%
Total	**100.00%**

Source: Baidu Online Network Technology (Beijing) Co., Ltd.

Note 1: The data above are as at December 2025.

Translation note: The listed shares sum to 99.98%, while the source reports a total of 100.00%. All figures are reproduced as published.

Appendix table 4 Internet access

Indicator	December 2025 (%)
Individuals using the internet (note 1)	91.8
Households with internet access	90.4
Individuals owning a mobile phone (note 2)	98.8

Note 1: "Individuals Using the Internet" is one of the International Telecommunication Union's (ITU) key indicators for assessing information-society development in countries and regions. Taking account of common international reporting practices for this indicator and individual internet use in China, this figure is estimated on the basis of the proportion of individuals in China who use the internet.

Note 2: The data come from the Statistical Survey on Internet Development in China.

Unofficial English translation of CNNIC's 57th Statistical Report on China's Internet Development, PDF pages 77-79 (printed pages 69-71). Figures and source notes are reproduced from the supplied report.
